

DOSATRON®

WATER POWERED DOSING TECHNOLOGY

High Flow, Multi House Medicators

Treat multiple houses with one medicator!

With Dosatron's higher flow medicators, the **NEW D8RE2 - 40 GPM** and the **D20S - 100 GPM**, you can now treat multiple houses with just one medicator saving you time, money, and space! They can also be installed at the wellhead.

The new polypropylene, **D8RE2 - 40 GPM** medicator provides outstanding chemical resistance and it consistently dispenses most concentrates from 0.2% to 2%.

The NEW D8RE2 - 40 GPM features:

- Chemical resistant polypropylene housing
- Easy-to-adjust injection rates
- Easy-to-read graduated scales

The **D20S - 100 GPM** Dosatron has a water flow range of 5 to 100 GPM and a dilution range of .2% to 2%. Both medicators provide the higher flow needed to treat multiple houses and are water-powered so no electricity is necessary.

Both models are compatible with:

- Medications
- Water acidifiers
- Line cleaners
